Locker Hooking Table mats

Tutor – Linda Moor

This is a great way to use up left-over fabric to make original coasters, place mats, heat mats for teapots and casseroles, cushions, bags, Christmas stockings or anything else you can imagine. The technique is quick and easy to learn. You use a locker hook, canvas, twine and fabric and the results are impressive. Mats can be washed in the machine, as the fabric is 'locked' in place with the twine. They are tough and long lasting. You can make up your own designs or patterns or try some traditional patchwork designs. Come and have a go and see for yourself – you might get hooked!!
